NEWSWORTHY

10,000 COVID-19 PATIENTS RECRUITED WORLDWIDE!

- We would like to say a MASSIVE thank you to EVERYONE for their commitment to the REMAP-CAP study.
- UK sites have now recruited 5544 COVID-19 patients!

UKCCRG 2022

(Monday 19th September - Tuesday 20th September)

- We want your feedback! Join us in Edinburgh to share your views on REMAP-CAP and discuss future plans.
- When: Monday 19th September, 13:15 - 13:45.
- Where: Pentland East Room, The John McIntyre Conference Centre

We look forward to seeing you there!

MONITORING VISITS

- Our study monitors are prioritising on site visits and will get in touch with you to arrange a visit.
- We look forward to seeing you when we can!

UPDATES AND REMINDERS

Current REMAP-
CAP
Trial Team
([email](#))

Janis (Imperial)

Liz (Imperial)

Lucy (Imperial)

Walton (ICNARC)

WE ARE UPDATING THE INVESTIGATORS LIST

- We want to make sure our current investigators list is up to date, if nothing has changed at your site there is no need to get in touch.
- However, if there are any additions or changes you would like us to make, please contact us on the [REMAP-CAP email](#) by the of 30th September.

DOMAIN CLOSURES/PAUSES

- ACE2 RAS: Closed (link to [letter](#); please respond ASAP to any Urgent Data Queries)
- Continuous therapeutic anticoagulation: Closed (link to [letter](#))
- Vitamin C non-pandemic and pandemic : Paused (link to [letter](#) and [LOVIT trial publication](#))

We are currently working with the LOVIT covid team investigating the effects of Vitamin C on Covid-19 to produce the most informative analysis.

API SCHEME REMINDER

- All applicants to the API scheme must complete all training as usual.
- This includes training logs, delegation logs, up to date CVs and GCPs. Once complete please email to the REMAP-CAP inbox. We cannot sign API checklists without this documentation.

OPEN DOMAINS

FINAL REMINDERS

1. The REMAP-CAP PIS Summary CANNOT be used for full consent. Please follow up with full consent using the REMAP-CAP Informed Consent Form.
 - The FAQ document details the full consent process and can be found [here](#).
2. To get Spinnaker access, please send your:
 - Signed CV
 - GCP certificate
 - Self-training log
 - Site delegation log
3. Please only contact ukremap-cap@icnarc.org for study specific queries and NOT the database team in New Zealand: REMAP-CAP (info@remapcap.org) / Spiral Support (support@spiral.co.nz)
4. Study documents can be found on the ICNARC website [here](#).
5. All documents relating to amendments for the study can be found [here](#).

ACTIVE PANDEMIC DOMAINS

- Simvastatin
- Anticoagulation (conventional low-dose thromboprophylaxis and intermediate-dose thromboprophylaxis)
- Updated Immunoglobulin
- Cysteamine (Cysteamine bitartrate IMP supplied on request)

ACTIVE NON-PANDEMIC DOMAINS

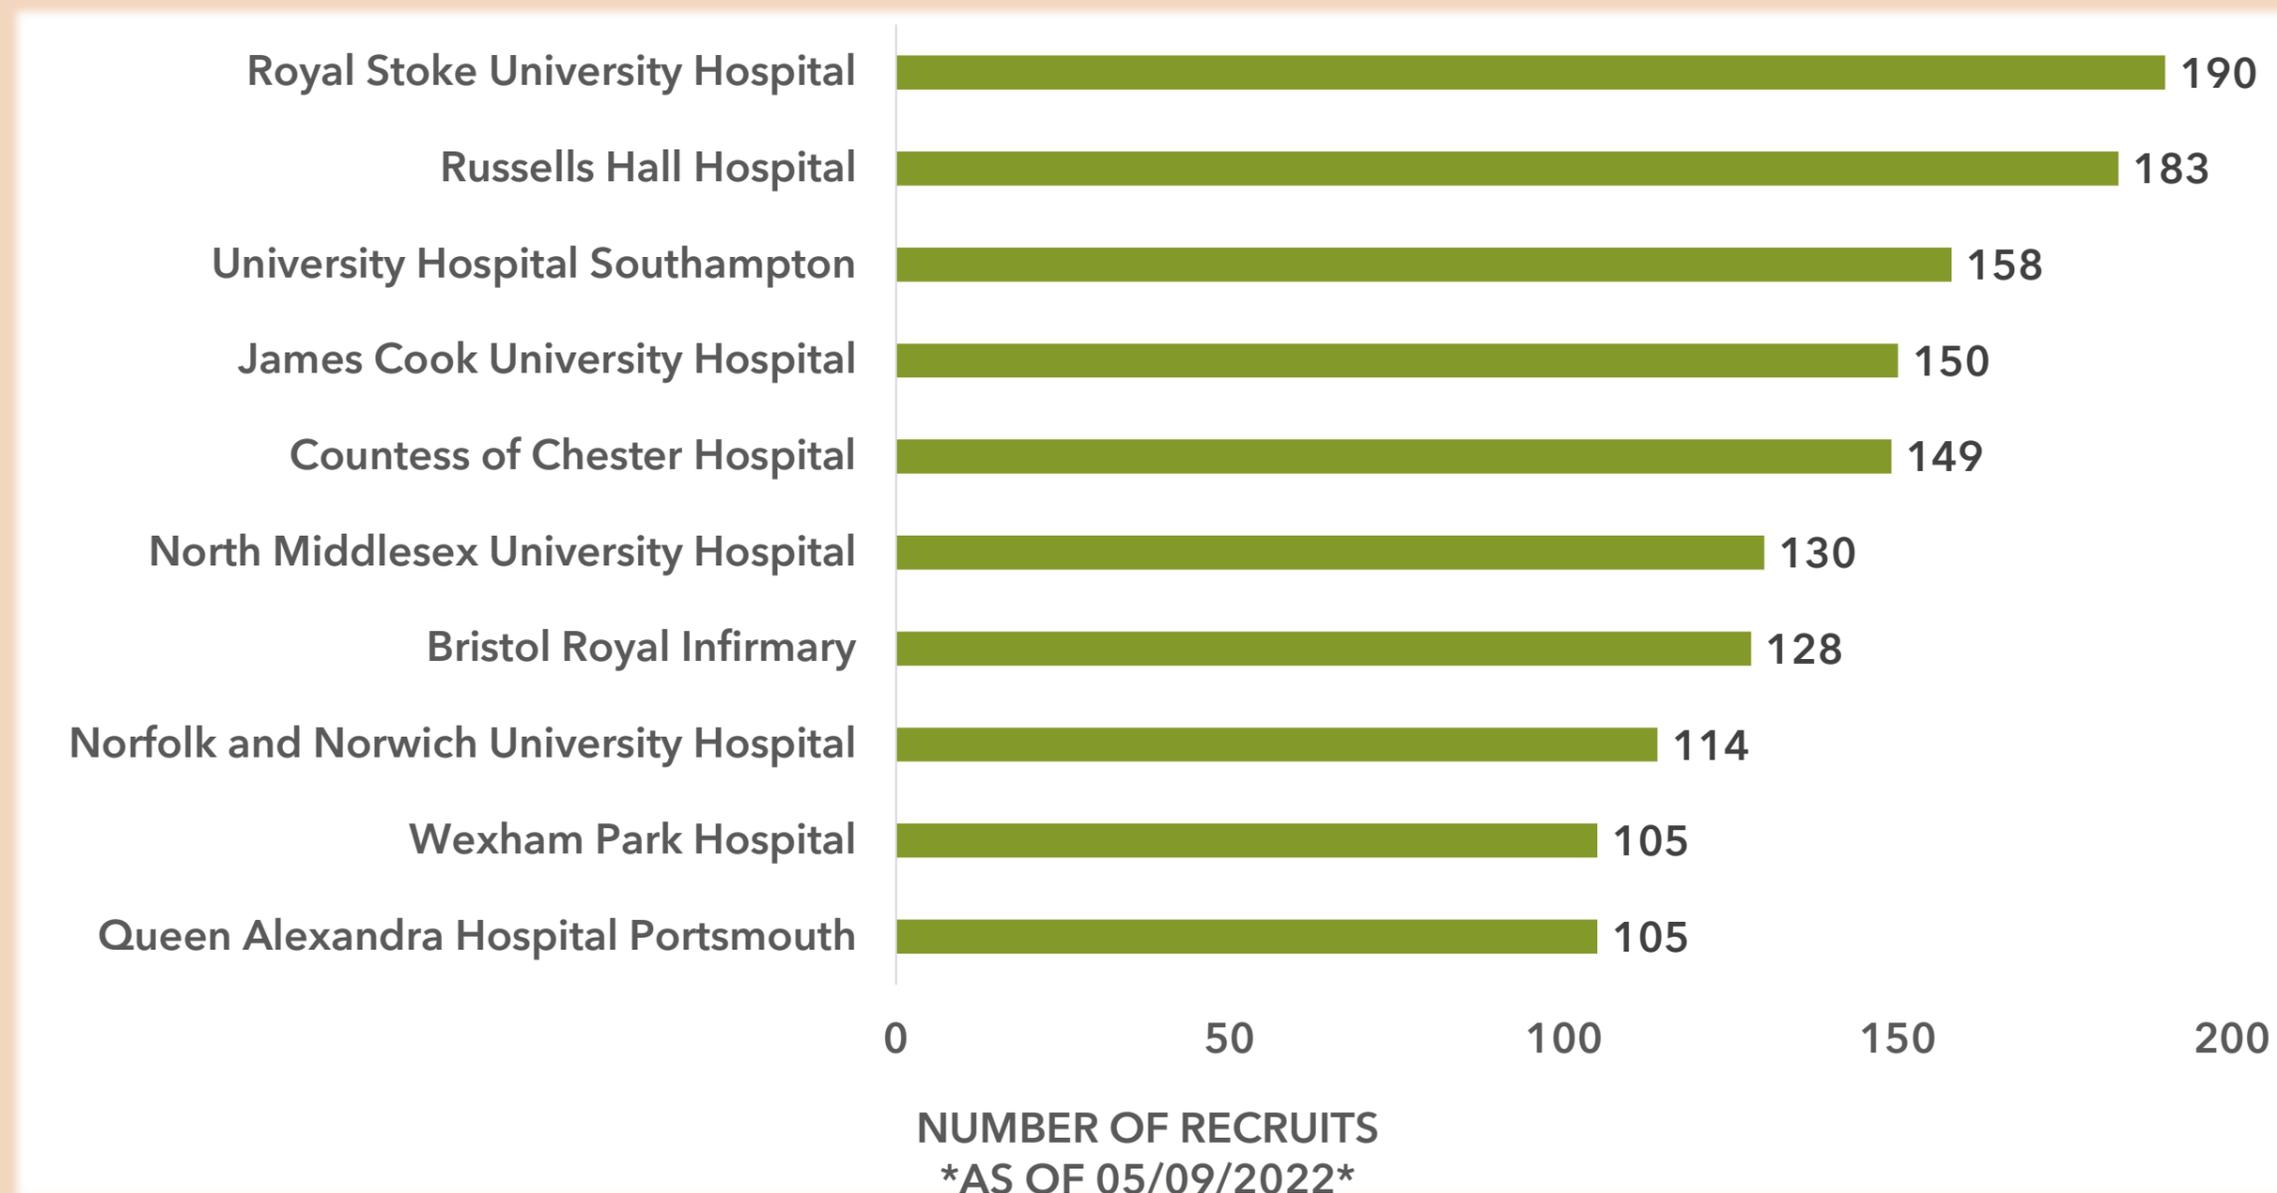

- Antibiotics
- Macrolide Duration (only in association with the antibiotic domain)
- Antiviral
- Corticosteroid
- Cysteamine (Cysteamine bitartrate IMP supplied on request)

CYSTEAMINE

- The relabelling plan for Cysteamine is underway and we will be in contact once complete.

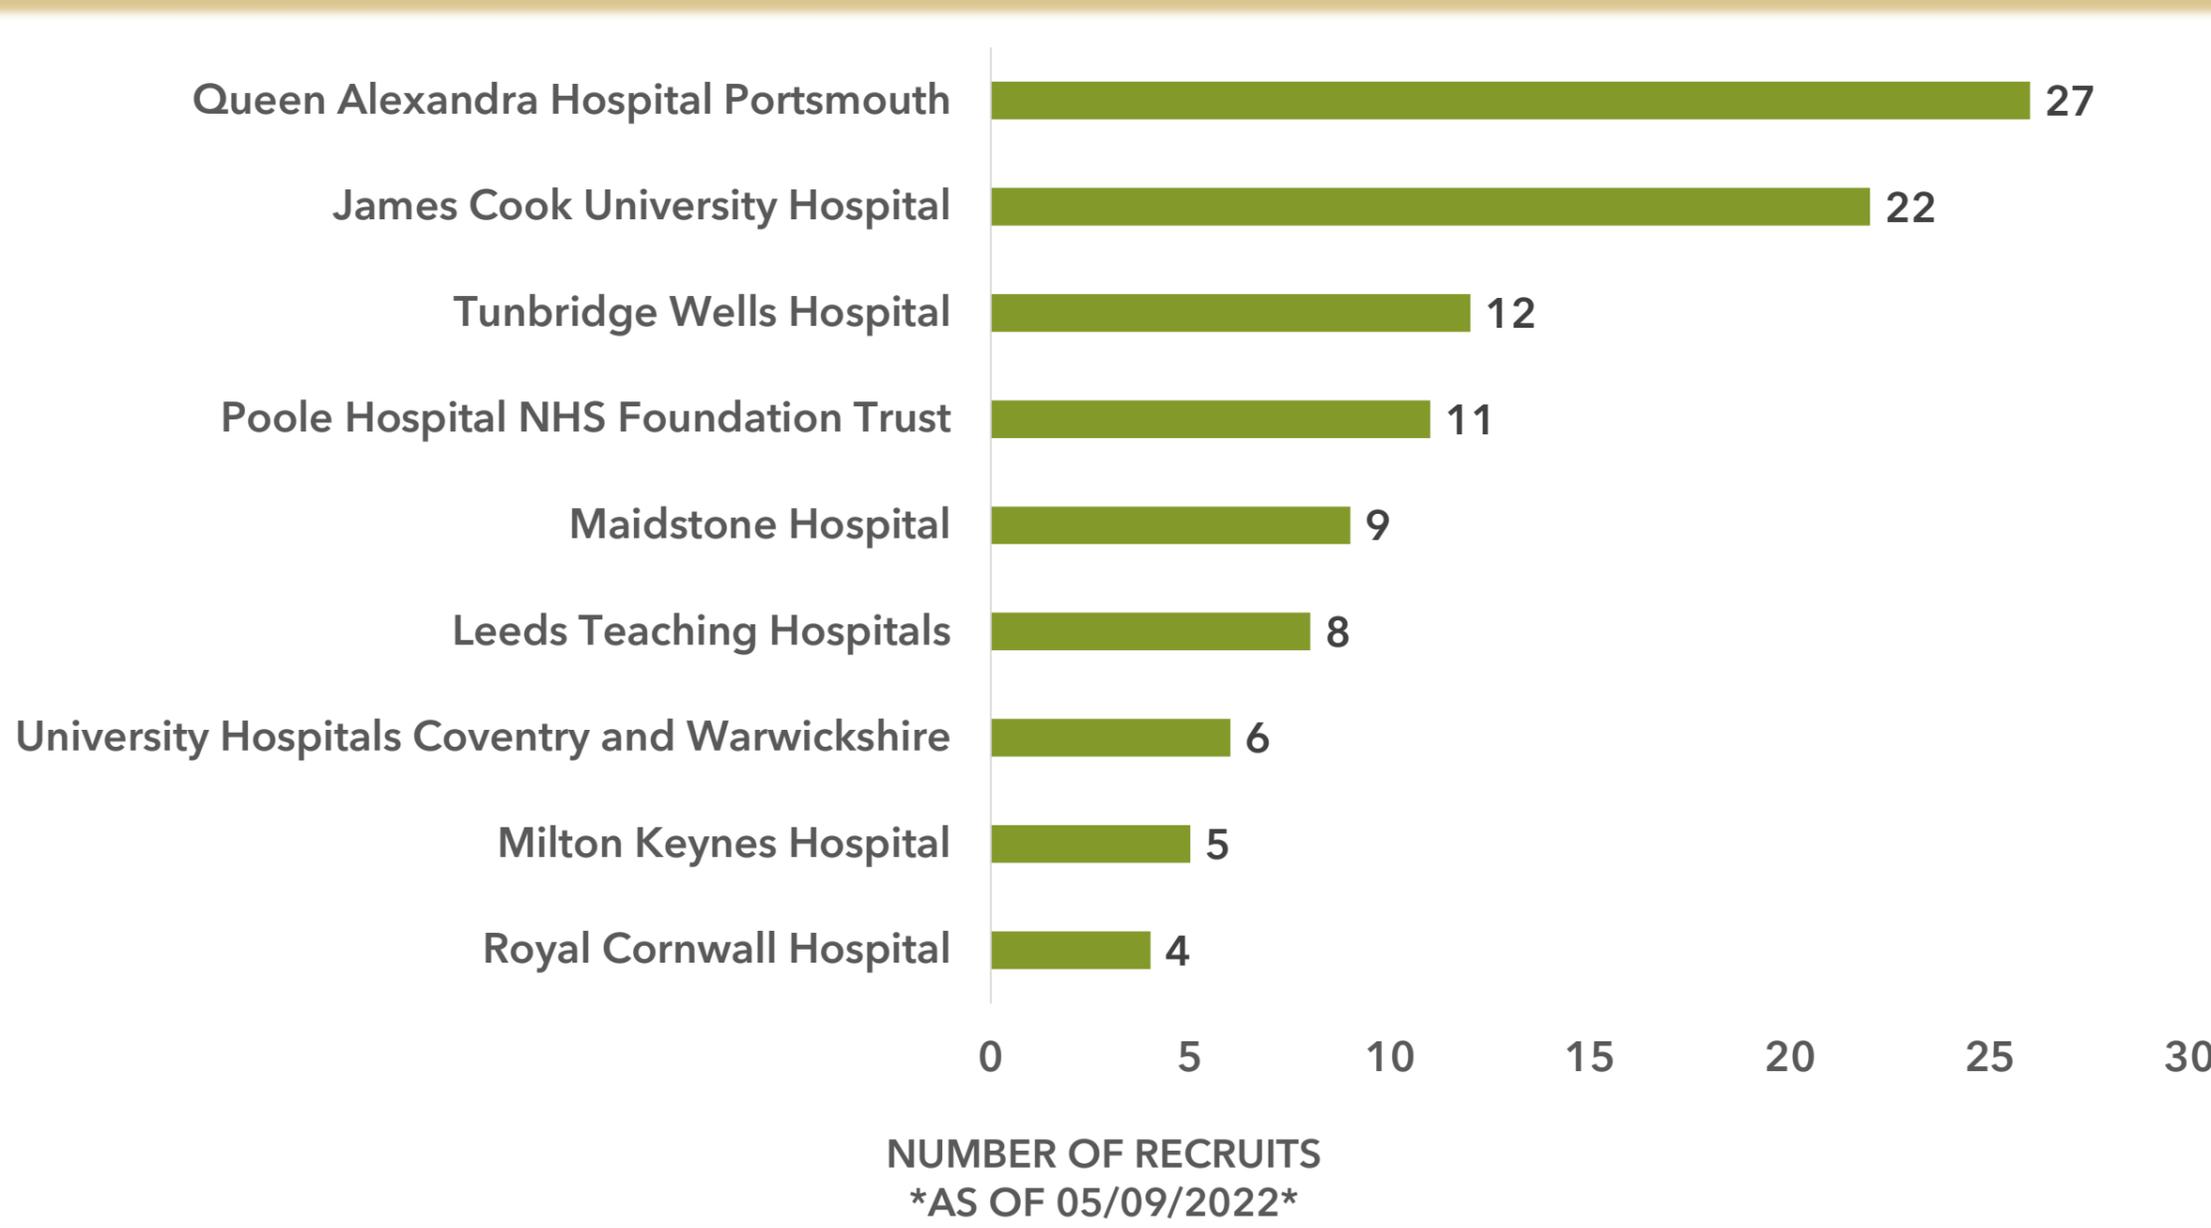

RECRUITMENT

Top of the leader board for overall pandemic patient recruitment is Royal Stoke University Hospital with 190 patients. A special thanks goes to all the sites listed below.

RECRUITMENT Cont.

Top of the leader board for overall non-pandemic patient recruitment is Queen Alexandra Hospital Portsmouth with 27 patients. A special thanks goes to all the sites listed below!

COVID-19

MILESTONES 2022

JANUARY 11 2022

Updated Immunoglobulin domain opens

FEBRUARY 24 2022

ACE2 RAS domain closed for critically ill (i.e., severe state) patients

MARCH 22 2022

Antiplatelet paper published

APRIL 22 2022

1st patient randomized to updated Immunoglobulin domain

JUNE 16 2022

ACE2RAS domain closed for moderate state patients

JUNE 17 2022

Vitamin C domain paused for non-pandemic patients due to results from the LOVIT trial

JULY 06 2022

'Continuation of the therapeutic dose anticoagulation' intervention of the Anticoagulation domain was closed.

JULY 16 2022

Vitamin C domain paused for pandemic patients due to hitting a statistical trigger.

JULY 18 2022

Vitamin C domain paused due to results from the LOVIT trial.

AUGUST 28 2022

10,000th patient randomised to the study worldwide.
