Dear Dr Gordon

RE: IRAS 237150 - REMAP-CAP

I am pleased to inform you that your study has been deemed eligible for NIHR Clinical Research Network support.

Further information about Eligibility for Studies to receive CRN support, is available on our web site.

Please note your study has provisionally been assigned to the CRN: Critical Care Specialty. A member of the Specialty Portfolio team will be in touch to collect any additional information required for inclusion of your study on the Central Portfolio Management System (CPMS). However if you have any queries please don't hesitate to contact CRN: Critical Care - crncc.portfolioa@nihr.ac.uk

This decision does not affect your application for HRA Approval; should you have any questions about HRA Approval, [contact the HRA](#).

The Local CRN for each participating site is now able to provide support to undertake NHS Support activities for this study as per their local model. These models may vary and therefore agreement with the Local CRN for each participating site is required. To note: Provision of NHS Support Activities is informed by the attribution of study specific activities as NHS Support Activities. This is agreed once on behalf of the CRN by the Lead Local CRN AcoRD Specialist at the Lead Local CRN in line with AcoRD policy.

Kind regards

Richard
